## Open Letter from the Chairman of the World Amateur League

### To all British Amateur Competitors and parents of children who dance

Do you or your children love to dance? Do you just wish that this can happen unhindered and for joy? Are you or your children being bullied or threatened either to compete or not compete in any events? Do you wish this to stop? Do you need help to prevent this in the future?

In Denmark, Holland and even outside the EC in Russia, brave competitors made a legal stand against these very restrictions and won their court cases. I, not only as chairman of the World Dance Council Amateur League and our defense of the open market, but also as a parent of a nine year old boy am happy to offer you any help and assistance possible in the efforts of you or your children to freely compete in any competition you or they choose.

Please feel free to contact me, in strictest confidence if you prefer, with any of your problems or concerns. The bullying must stop now!!!!

Sammy Stopford  
*Chairman*
